August 2022 - October 2022**

I, Perry Skrlik do swear that I will diligently, faithfully and to the best of my ability execute according to law, the Office of Councillor for the Village of Nampa.

So Help Me God.

SWORN before me at the Village of Nampa in the Province of Alberta, this 16th day of August 2022.

Councillor, Village of Nampa

CAO, Village of Nampa

Agenda Item # 5.2

Request for Decision (RFD)
Council Meeting August 16,2022

Topic: Appointee of Mayor & Deputy Mayor/Boards & Committees

Background:

As per MGA council needs to appoint a Mayor & Deputy Mayor

Council needs to have discussion around the Boards & Committee reps for the following boards, since the resignation of Bulford, the alternates for those boards have been the representatives.

Economic Development & Tourism - Alternate Councillor Lee

Nampa & District Ag Society - Alternate Councilor Roshuk

NAEL - Alternate Deputy Mayor Matiasiewich

PREDa - Alternate Councillor Roshuk

Administration Recommendation:

If current reps for boards want to remain , then alternates need to be appointed or vice versa

Dear Ms. Roshuk:

I hope you are well and enjoying your summer.

In mid-June, you would have received an email from Stephen Covey, Chief of Police and Chief Security Officer and Cyrus Reporter, Vice-President, Public, Government & Regulatory Affairs asking for your organization to support CN in promoting Rail Safety in your Community. As leaders in your community, your council can play a key role in preventing incidents and saving lives by adopting the attached draft proclamation and further sharing on your community communication platforms.

I would like to extend my gratitude in advance of your considerations to our proposal of adopting the attached draft Rail Safety Week proclamation.

Please send a copy of your proclamation by e-mail to tyler.banick@cn.ca & Marie-Pier.Triganne@cn.ca and also please let us know about what your plans are to promote rail safety in your community so I can share with the greater CN team.

Throughout the year, if you have any follow up questions or concerns about rail safety in your community, please contact me and or our Public Inquiry Line at 1-888-888-5909.

For additional information about Rail Safety Week 2022, please consult cn.ca/railsafety or operationlifesaver.ca.

Have a wonderful rest of your summer and I looking forward to collaborating with you in our Rail Safety journey.

Sincerely,

Tyler W. Banick (He/Him)

Agenda Item # 5.4

Request for Decision (RFD)
Council Meeting August 16, 2022

Topic:

Fence Extension Request onto Village owned Property

Background:

Property owner at 10107-100 Avenue is in the process of building a fence and they are requesting to extend the fence onto Village owned property. See attached letter. Administration spoke to our assessor Rod Guttinger, and attached to RFD are some "scenarios" for council to consider.

Administration also spoke to our MMSA planner, and they said that the Village could allow the extension and enter into an encroachment agreement, however they are unsure if the Village would need to sell or lease the Village lands to the resident.

Council needs to consider the future of the property and the future needs of the Village when making a decision

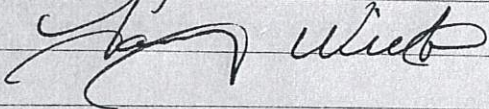

Pictures attached

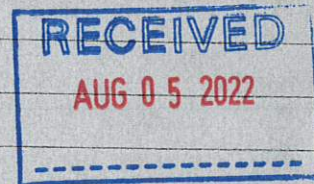

Administration Recommendation:

For discussion

Nampa Council

I'm writing this letter to ask permission to extend my fence an extra 10 feet towards the Complex. I have put stakes where the property line is and there would be 12-13 feet of grass outside the fence. If given permission to do so we will keep extra grass cut. If property taxes need to be adjusted that is fine by me. The property in question is 10107-100 ave.

Sincerely,
 Whit

Subject: RE: Fence Extension

Hi Dianne

I believed we talked about 3 scenarios.

Scenario 1

The owner of the lot next door extends their fence on to Village property and occupies the space.

Assessment: As an occupier and user of property owned by a Municipality the person using and occupying the site becomes the assessed person and would be responsible for taxes and frontages.

The village must consider the following: Access to the property including return of the property, legal liabilities (insurance etc.).

Example: Without a lease what is the legal state of the property and how would you evict someone and regain control of the property if it is needed. How would the property be dealt with if the taxes were not paid?

Scenario 2

The owner of the lot next door leases the area from the village and occupies the space.

Assessment: As an occupier and user of property leased from a Municipality the person using or leasing the site becomes the assessed person and would be responsible for taxes and frontages.

The village must consider the following: Although more secure then the first scenario as there is a lease contract which could include sections on access to the property including return of the property (time limits). The village could still have legal liabilities (insurance etc.).

Example: With a lease contract the legal state of the property would make it easier to regain control of the property if it is required although an action may be needed. Also, how the property would be dealt with if the taxes were not paid could be in the lease agreement?

Scenario 3

The owner of the lot next door buys the area from the village and joins the area to their existing lot by legal subdivision.

Assessment: The person would become the owner on the titles and would be the assessed person. The legal liabilities of the property would be the owners.

The village must consider the following: They would be losing control and any future use of the property and would have to consider whether the property may be needed in the future. There would be legal cost here for the subdivision and the registration of the title and who would pay. How much they would like in compensation for the land. This scenario would cost the most which would likely be made the responsibility of the purchaser.

Example: This would be ownership on title and would be dealt with like any other property when dealing with municipal controls such as taxes frontage charges or forfeiture.

In all three scenarios the property would be assessable and taxable to the person using or owning the property. Probably more important is regarding the future of the property and the future needs of the Village.

Hope this helps.

Subject: Fence Extension

Hi Rod,

I received a letter from the property owner in regards to the extension of her fence onto Village property , we had discussed this on July 25

Can you please reiterate to me in an email what the Villages options are in regards to this. We talked about leasing or subdividing into existing lot.

Can you expand more on these options for me so that I can present to council

Thanks , Dianne

Subject: Government of Alberta (GoA) Mobile Wireless Services Contract and Procurement

I am writing to inform you that a competitive procurement process is underway to select a vendor to provide wireless services to the GoA. The current 11-year contracts with TELUS and Bell expire on December 31, 2022, and must be replaced to ensure continuity of service.

The types of services provided under the current contracts include mobile wireless devices for purchase and service plans for mobile phones, laptops, and tablets. As you might expect, many public bodies like agencies, boards, commissions, municipalities, school boards, and publicly funded academic, health, and social services entities may have their own contracts with TELUS and Bell.

We expect access to GoA pricing will continue, but we will not know the exact details of the pricing offer until a new vendor is selected and the contract is finalized. However, all users, including entities that accessed GoA pricing, will continue to receive services under the terms defined in their contract.

The Negotiated Request for Proposals closes in late July 2022, and Service Alberta expects to execute a new contract by October 1, 2022, which will provide sufficient time to transition to the new contract.

In the interim, I encourage you to read the attached fact sheet. If you have any questions, please contact Geoffrey Wacowich, Executive Director or Infrastructure and Service Management, Service Alberta, at geoffrey.wacowich@goc.ab.ca.

A handwritten signature in blue ink, appearing to read "Brandy Cox".

Procurement for Government of Alberta Wireless Services

The Government of Alberta (GoA) has issued a Negotiated Request for Proposals (NRFP) to provide interested vendors an opportunity to compete for the government's wireless services business.

Information for government departments and GoA-supported bodies

The current 11-year contracts (TELUS and Bell) to provide wireless services to the GoA expire on December 31, 2022 and must be replaced with a new one. The value of the current contract is approximately \$5.6 million per year and covers more than 20,000 GoA service plans.

To ensure good value for money and to comply with trade agreement obligations, Service Alberta has issued an NRFP to provide interested vendors an opportunity to compete for the business.

The final closing date for the staged NRFP is late July 2022. Service Alberta expects to have a new contract in place in October 2022.

What services are currently provided?

The services and products provided by the two service providers include mobile wireless devices for purchase, service plans (including service plans for third-party laptops, tablets, etc.) and a pay-per-use business model, whereby the device pricing and plan pricing are separate.

The current contract allows other public bodies (government agencies, boards, and commissions (ABCs), as well as school boards, hospitals, post-secondary institutions, and municipalities) to access preferential government pricing for their own contracts.

GoA employees also have the opportunity to access discounted prices for service plans for personal devices.

What the procurement means to ministries and other public-sector bodies

For now, everything is status quo. The existing contracts remain in effect until December 31, 2022. Current users, including other public bodies that may have accessed GoA pricing, will continue to receive services under the terms defined in their contract.

As for what the future looks like, the NRFP is a competitive procurement process. Because the terms of the new agreement will be subject to negotiation, we cannot say for certain what services and benefits will be offered.

The NRFP includes a provision to provide other public bodies (ABCs and municipalities, school boards, and publicly-funded academic, health, and social service entities) with access to GoA pricing, but the details of the offer will not be known until the negotiations are complete and the contract is awarded.

Keeping you informed

Service Alberta will provide updates at significant milestones throughout the NRFP process. To ensure continuity of service, we plan to have the new contract in place by October 1, 2022.

Milestones

May 16	NRFP posted.
June 6	Mandatory screening closing date.
July 22	Final closing date.
July-August	Evaluation and selection process, including vendor presentations, negotiations, etc.
September	Vendor selection and contract approval process.
October 1	Execution of contract. Transition period begins.

UKRAINIAN CANADIAN CONGRESS
ALBERTA PROVINCIAL COUNCIL

КОНГРЕС УКРАЇНЦІВ КАНАДИ
ПРОВІНЦІЙНА РАДА АЛЬБЕРТИ

Date: August 2, 2022

To: Alberta Municipalities

From: Orysia Boychuk, President, Ukrainian Canadian Congress – Alberta Provincial Council

RE: Ukrainian Independence Day 2022 (August 24) & Alberta Ukrainian Canadian Heritage Day 2022 (September 7)

Ukraine's 31st Independence Day is approaching on August 24th, 2022, as well as Ukrainian Heritage Day on September 7, 2022. We would like to thank all the municipalities in Alberta that have acknowledged these important dates by lifting a Ukrainian flag or displaying a banner. This year more than ever it is important to acknowledge these dates and display Alberta's solidarity with Ukraine, those who have newly arrived fleeing the war and the diaspora that has worked tirelessly to assist the Ukrainian Nationals. The war was caused by Russian military aggression and has accounted for many lost lives, damaged infrastructure and displaced Ukrainians.

The Ukrainian Canadian Congress – Alberta Provincial Council (UCC-APC) is inviting all municipalities to raise the Ukrainian Flag, display a banner, or light up significant structures with blue and yellow colors on these 2 important dates. We appreciate all the support so many communities have provided to assist Ukrainians in their home country and on arrival to Alberta.

UCC-APC also encourages short ceremonies where possible and including all ethnic and refugee groups as appropriate. We would also appreciate receiving any photos or short notes about these events. UCC-APC will proudly display these photos on our social media pages and share with our national organization the Ukrainian Canadian Congress to showcase Alberta's commitment to this important cause and that we remain the cradle of Ukrainian settlement in Canada.

Orysia Boychuk, President

UCC-APC
