BYLAW NO. 475

BEING A BYLAW OF THE VILLAGE OF NAMPA IN THE PROVINCE OF ALBERTA TO AMEND THE VILLAGE OF NAMPA LAND USE BYLAW NO. 421

WHEREAS, Village of Nampa has adopted the Village of Nampa Land Use Bylaw No. 421 to regulate land use and development in the Village, and

WHEREAS, the Council of the Village of Nampa, in the Province of Alberta, has deemed it desirable to amend the Village of Nampa Land Use Bylaw No. 421 to re-designate lands from Residential Restricted (R1) to Residential General (RG) to have all property zoned under the same District.

NOW THEREFORE, THE COUNCIL OF THE VILLAGE OF NAMPE, IN THE PROVINCE OF ALBERTA, DULY ASSEMBLED, HEREBY ENACTS AS FOLLOWS:

- 1. That Lots 2 & 3, Block 13, Plan 8021462 be re-designated from Residential Restricted (RI) to Residential General (RG); as shown in the attached Schedule "A";
- 2. If any portion of this bylaw is declared invalid by a court of competent jurisdictions, then the invalid portion shall be severed;
- 3. The adoption of this bylaw is effective upon the date of the passing of the third and final reading of this bylaw.

First reading given on this 17 day of Oct	tober, <u>2023</u>

Dear Mayor Matiasiewich:

Thank you for your correspondence of May 18, 2023, written on behalf of the Village of Nampa Council, which was referred by the Office of the Minister of Environment and Climate Change, the Honourable Steven Guilbeault, regarding the federal carbon pricing fuel charge. Please excuse the delay in replying.

I hear your concerns regarding growing costs to the Peace River School Division and the funding challenges it's facing.

I will take these recommendations under advisement and would be happy for you to connect with my Western Advisor, Galen Richardson, to hear further on this issue. His e-mail address is galen.richardson@fin.gc.ca.

Thank you for writing on behalf of the Village of Nampa Council.

Sincerely,

The Honourable Chrystia Freeland, P.C., M.P. Deputy Prime Minister and Minister of Finance

Dear Mayor Matiasiewich:

On behalf of the Honourable Steven Guilbeault, Minister of Environment and Climate Change, I am responding to your letter of May 18, 2023, concerning the federal carbon pricing plan.

The matter you raise is the responsibility of the Department of Finance Canada. I am therefore forwarding a copy of your letter to the Office of the Honourable Chrystia Freeland, Minister of Finance and Deputy Prime Minister, for consideration.

Please accept my best regards.

Sincerely,

Sylvie Poulin Manager

May 18, 2023

Minister of Environment and Climate Change Honourable Steven Guilbeault Steven.Guilbeault@parl.gc.ca

Dear Honourable Steven Guilbeault;

RE: Carbon Tax Concerns

On behalf of the Village of Nampa Council, we are writing about our concerns of the ever-increasing costs of the carbon tax and what the impacts will have on our northern municipalities and local school divisions.

The carbon tax levy to our local Peace River School Division is set to be \$200,000, and is estimated to reach \$680,000 by 2030. The cost of heating schools is already high and our buses travel long distances each day to transport students in the large catchment area that is served by our schools.

The cost of the carbon tax levy is greater than the cost of operating some of our smaller schools, which are already burdened by the threat of closure due to funding constraints. Such closures would have devastating impacts on our ability to provide quality education to students and the viability of communities, particularly to the Village of Nampa.

We urge you to take a stand against the carbon tax on municipalities and school divisions and find alternate solutions that do not place such heavy burdens on municipalities and schools. We are hopeful that you will take a leadership role in finding other solutions.

Thank you for your attention to this critical matter. We eagerly await your response.

Sincerely,

Mayor Evan Matiasiewich

Subject: NWP Follow-up Part II

Hello Dan and Joni,

Could I ask that you forward the message below and the attachment to the PREDA membership who have been involved in the NWP Fairview Campus discussions? Please include me on the email. Thank you very much for your ongoing support with this!

Hello PREDA members,

Thank you for your patience and support as we worked to gather the last item for follow-up from the July 27th meeting with the Minister. I also have the Capital Timelines for the Fairview Campus as per the attached. Once we have the Expression of Interest posted for Houses 1-6 and the Dunvegan Hall, we will share the link for all interested parties to find the information and reach out with any questions.

The last item for follow-up was the response to the question listed in the table below:

Thank you again for your support and for sharing your feedback and questions. We are developing a semesterly (3x a year) or quarterly update document that we can share with our Indigenous, community, municipality, and industry stakeholders. I do not have an ETA on the first addition yet but we are working on it. As always, happy to have a conversation anytime about collaborative opportunities or options for NWP to support your needs. Please reach out anytime.

Vanessa

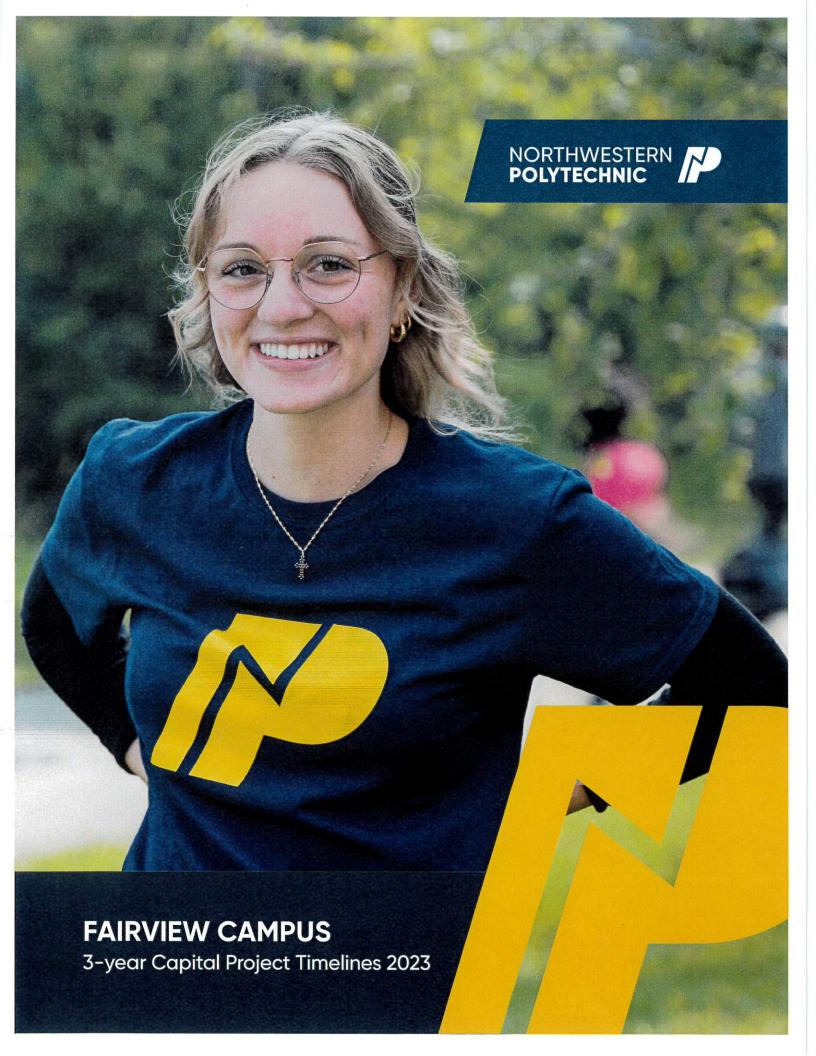

Vanessa Sheane, PhD, RN Acting President and CEO

Northwestern Polytechnic

10726-106 Ave, Grande Prairie, Alberta, Canada T8V 4C4 P: 780.539.2867 C: 780.814.0775

Northwestern Polytechnic acknowledges that our campuses are located on Treaty 8 territory, the ancestral and present-day home to many diverse First Nations, Metis, and Inuit people. We are grateful to work, live and learn on the traditional territory of Duncan's First Nation, Horse Lake First Nation and Sturgeon Lake Cree Nation, who are the original caretakers of this land.

We acknowledge the history of this land and we are thankful for the opportunity to walk together in friendship, where we will encourage and promote positive change for present and future generations.

BackGROUND

Northwestern Polytechnic (NWP) recognizes the vital contribution of our Fairview campus to Alberta post-secondary students, regional communities, and the economy. To that end, NWP's capital management planning and associated maintenance schedule aim to address current needs along with anticipated investment that will ensure the ongoing safety, performance, and efficiency of all campus building assets.

NWP remains committed to:

- Growing both campuses through enrolment expansion and new program development.
- Right sizing our campuses based on the programs we offer, with room for growth, so that the capital maintenance and renewal funds can be strategically invested and the NWP student experience can be enhanced.
- Sharing up-to-date information with our stakeholders and exploring opportunities as they arise.

Campus Master Plan In 2023, NWP engaged an external consultant who assessed the current state of both campuses and provided a number of recommendations for the future. In particular, this recent work confirmed that NWP's deferred maintenance demands exceed the capital maintenance and renewal funding the institution receives from the Government of Alberta and that critical decisions about facility investment are required to ensure the long-term viability and sustainability of both campuses.

NWP's 2023 Campus Master Plan (CMP) informs these decisions. The CMP prioritizes NWP's greatest infrastructure assets and aims to create vibrant spaces for academic success, social interaction, extracurricular activities, and wellness programs that enhance student life on campus. The CMP also integrates energy efficient systems, nodes, and sustainable designs that reduce NWP's ecological footprint and contribute to a greener campus.

Funding CHALLENGES

At present, NWP does not receive enough funding to ensure existing infrastructure is fully maintained and renewed. As such, we must identify and concentrate on the areas of highest priority (failing HVAC components, roofing, glazing, etc.); those that provide the largest return on investments (energy reduction); and building areas with the highest usage. The deferred maintenance costs by campus are:

- Fairview approximately \$7.1 million with a 5-year outlook of approximately \$30.3 million
- Grande Prairie approximately \$12.1 million with a 5-year outlook of approximately \$42.4 million

Moreover, since NWP is not permitted to use the capital maintenance and renewal funds for renewing student housing, these assets must be self-sustainable.

Timely SOLUTIONS

NWP understands the importance of ongoing dialogue with various regional stakeholders to share findings and potential strategies for the future.

This report captures timelines for implementing the building recommendations identified in the CMP and reflects:

- Community/stakeholder feedback,
- Seasonal construction limitations,
- Programmatic assessments completed following CMP development,
- NWP's approved 3-year Capital Plan, and
- · Operational readiness.

These timelines are presented by building on our Fairview Campus. Please note that as with any major project, some variances may be anticipated due to competing demands and unforeseen circumstances.
