CRITICAL CARE, ANYWHERE

The best hope, in a worst-case scenario.

Critical care, anywhere. Since 1985.

It all began when a pregnant woman from a rural community died from blood loss, leaving a father alone with their newborn. For STARS' founders, her death was one too many. Something had to be done.

As we've grown and evolved, STARS has never wavered from our mission. Fundamentally we believe that where you live — or work, play and travel — shouldn't impact your chance of survival.

Subject: Membership in Northern Woods & Water Highway Association

January 16, 2026

Attention: CAO Dianne Roshuk
 Village of Nampa

Re: Membership for Northern Woods & Water Highway Association

The Northern Woods & Water Highway is a group of small municipalities and businesses located along the Northern Woods & Water Highway which you may not be familiar with.

The concept for the highway was developed in the mid-1970s as a holiday route and as a transportation corridor for northern goods. The association was formed, and the three provinces recognized and signed the highway. The Highway officially runs from Winnipeg to Dawson Creek across northern Manitoba, Saskatchewan, and Alberta. Our Association is striving to extend the highway's reach by going through the province of British Columbia and getting it recognized and signed with our name & logo. The acknowledgment by the British Columbia government would generate the opportunity to market the highway as the 3rd Trans-Canada Highway. This would enhance the tourism economy in all the communities along the highway, thus bringing opportunities and benefits to local businesses and residents.

The Association was revived in 2016 following a hiatus of some 25 years. Since then, we have produced and distributed over 160,000 copies of our highway guide, attended several RV tradeshow, had articles published in several RV newsletters crossing Canada and the US. We developed a website www.nwwr.ca and created videos about the highway experience. We support the Gateway Keewatin Corridor group in their efforts to have the last portion of our highway, between Nipawin & The Pas, developed to an all-season road and eventually paved to facilitate the use of the Port of Churchill for the export of northern goods. The economic engine of the northern communities is predominantly forestry, with oil & gas, hydro electricity, agriculture and mining, with an underdeveloped tourism opportunity.

In 2025 we restarted guided cavalcades to take groups of travelers along the highway each summer. We are working on bi-directional groups that would stay in some of the communities twice each summer while we will strive to stop in different communities each year and the different directions. The Cavalcade will spend money in communities for camping, catered meals, fuel, golfing, and some regional attractions over each 21 day road trips. The Itinerary for 2026 bi-directional tours is on our website www.nwwrvtours.com. We also encourage self guided travel.

We are request for financial support through membership in our organization. This is to help finance RV trade shows, social media marketing and promotion of the highway. The Association receives no outside funding other than advertising and membership. This membership strengthens our lobby efforts for highway improvements with the four provinces. Membership is based upon community size. For example Village of Nampa with a population of 365 membership would be \$260.

Please present this request to Council for a decision.

Thank you for your consideration and support.

Sincerely

Dale Harrison, President

North Peace Housing Foundation Board Meeting Synopsis – December 3, 2025

Executive Director

Garden Court Update:

Pre-Action System Installation

Johnson Controls recently informed us that the project drawings are still pending, which was unexpected and disappointing. Based on previous communication from the sales representative, we had understood that the drawings were already completed and that only material and permitting timelines were outstanding. The installation was described as straightforward, requiring approximately one week for electrical work and one day for mechanical work.

Given this new information, we are awaiting an updated timeline for the completion of drawings so the project can proceed as planned.

Even more disappointing is the update that there is approximately 8-12 weeks lead time for materials.

Asset Transfers:

The Foundation has received Affidavits Re Value Land for the 27 Asset Transfer Units, allowing the Province to transfer title.

Nominal Sum Properties:

No update to report.

SRHI (Sustainable Remote Housing Initiative) - Cadotte Lake:

The 4 remaining units are in the process of being appraised and will be posted for sale once we receive the final report from the appraiser.

The lots for 2 previously sold units have been reclaimed and turned back to Northern Sunrise County. The remaining lots will be cleaned up once the units are sold and moved off site.

Westview – Fairview Development Committee:

No update to report.

Del-Air Lodge Redevelopment:

On Friday, November 21, 2025, NPHF completed a walkthrough of the Del-Air Lodge and Aurora Place (Continuing Care) with Chandos Construction and Alberta Assisted Living and Social Services. Below is a list of deficiencies that require completion.

The items highlighted in green have been completed; items that have a completion date are to be completed before Chandos' technician leaves the site. Anything without a completion date is being worked on with relevant subtrades or is being investigated; Chandos expects to have all necessary items completed before December 4, 2025, the end of the warranty period.

There are seasonal items that will be rectified in the spring of 2026.
